D. L. VanPatten Will Receive Purple Heart In Antioch Meeting

American Legion Arranges for Supervisor to Obtain Honor Medal

David L. Van Patten, Wadsworth, chairman of the Lake County Board of Supervisors, will be awarded the War Department's Purple Heart in a special service conducted by the Antioch American Legion at 7 p. m. Thursday, April 1 at the Legion Home on Ida ave.

The recognition for his injury while in service during World War I was an oversight which might have never been known publicly had the Antioch post not made the discovery recently and applied for the award for him.

Now the Newport Township supervisor at last will receive the award which he knew he had coming but was too modest to apply for.

Van Patten was born in Lake Villa and was 30 years old when he entered service on May 2, 1918 and was discharged on April 20, 1919. He was wounded while in France on March 5, 1919.

The program will start with a luncheon at 7 p. m. served by the Legion Auxiliary in smorgasbord style, according to John L. Horan, program chairman. Cmdr. Harry A. Mizock will open the meeting. Horan, former Legion commander, will introduce Noel White, Fox Lake postmaster and former Grant Township supervisor, who in turn will introduce Van Patten.

Presentation of the Purple Heart medal will be made, however, by Ted J. Swedo, North Chicago, commander of the Members of the Military Order of the Purple Heart, to which Van Patten is now eligible for membership.

An address will then be delivered by Robert Maxwell, Mundelein, commander of the tenth district of the American Legion.

In his public life David L. Van Patten has performed outstanding service on the board of supervisors. He was chairman of the finance committee before being made chairman during the past year.

He will start in a new tournament at Wilmington, South Carolina on Friday of this week.

Curtain to Go Up for "Down To Earth" at High School Friday

The curtain will go up at 8 p. m. tomorrow (Friday) for the senior class play, "Down to Earth" to be given at the Antioch Township High school. It will be directed by Mrs. Jeanette D. Tulumello.

The play is a three act comedy-fantasy dealing with two angels who have been sent "down to earth" to collect two elderly souls. The two angels, Agnes and Wilfred will be portrayed by Donna Martin and Fred Miller. Agnes gets into interesting confusion when they meet Pilone, a half-angel. Pilone, played by Nick Ryan, succeeds in complicating the entire situation so as to endanger the return trip of Agnes and Wilfred.

Pilone manages to influence the romances, finances and fates of Augusta Applegate, played by Edwyna Chernik, her relatives, Orpha Teel, (Roberta Jach), Ruthie Teel (Joanne Haak), her maid Diana Clump, (Wendy Midgley), and her neighbor Herbert, Howell (Tom McGreal) Baxter Browley (Harold Wilson), June Browley (Gail Pedersen), Millie Browley (Arlene Gorsk), Robert Hanley (Richard Hedberg), and Richard White (Richard Huml) become mixed into the situation also only to have it end happily.

Joe Pechulis and Shirley Nelson have worked hard on this play as stage managers as have the other committees. The ticket sales are sponsored by Donald Cramer and the music is being furnished by the music department under the direction of Louis Chenette. There will be matinee and evening performances of the play so that everyone will be able to enjoy this opportunity for wonderful entertainment.

Winn Again to Head P.M.A. as President New Price Plan Voted

Walter Winn of Richmond was re-elected president of the Pure Milk Association.

Avery Vose, Antioch, representing District 7 on the board of directors, attended the meeting at Chicago Monday evening at which Winn and his entire staff of officers were re-elected.

District 7 which is mainly Lake Geneva, Wis., through enlargement of the district during the past year.

The P. M. A. held its yearly meeting at Chicago last week-end. The association voted 12,000 to 3,400 to level out the peaks and valleys of their milk production.

A spokesman explained that under the plan producers would be paid a blend or poor price for their milk during eight months, July through February. Each producer would set his own production base in the four months August through November. The base would be used during the four months, March through June to measure his production.

For any surplus production above his base he would be paid about 40c a hundred pounds less than the base price. This would tend to hold production down in the periods of normal excess of milk and dairy products.

Murphy Restates Stand On Personal Property Tax In Antioch Speech

W. J. Murphy, candidate for the Republican nomination for State Representative, at a meeting in Antioch on Tuesday evening restated his stand on the personal property tax issue.

Murphy said he felt compelled to speak again on this issue as a result of a newspaper report of a talk on this subject given by him at a meeting of the Republican Women of Woodstock. He directed attention to his original announcement as a candidate at which time he advocated an eight point platform of legislative interests. Number one of that platform was, "Repeal of the Personal Property Tax—not Amendments but repeal." He said that the voting public was certainly entitled to repeal of at least one of the many vicious taxes now paid. In his Woodstock address on this important subject he took this stand but then went on to say there was a "suggested plan" to remove the inequities but keep the tax by—

1. Making everyone pay by requiring their tax receipt before issuing State licenses for their cars.

2. Basing the tax assessment on so much for each room.

3. Removing the yield from the farmer's fields, the stock from a merchant's shelves, the inventories from an industrial plant from personal property tax assessments.

Murphy in his address at Antioch called attention to the fact that this was a suggested plan—but not his suggested plan. He said, "I am well aware that I as one of 153 representatives in the general assembly cannot alone remove this tax—but my wishes and my interests will be aimed at such removal."

"Part of the plan suggested has merit, such as removing the yield from a farmer's field, and stock and inventory from business and industry. However my true aim is to relieve the little man—the home owner from this tax, that makes us lie and cheat to get out of it. I restate my original statement, if a law is such that it makes cheaters and liars out of fine American people then there is something wrong with that law and it should be eliminated." He closed by asking his friends to correct anyone who has misunderstood his stand on this issue.

Dr. Tyler Thompson To Return Tuesday For Methodist Talk

Dr. Tyler Thompson, associate professor at Garrett Biblical Institute, has been invited back to the Methodist Church to speak on "Christian Responsibility for Society" at 7:30 p. m. Tuesday, March 30. This will be the fourth address on some aspect of the theme, "Christ—the Hope of the World." This is the theme for the Second Assembly of the World Council of Churches which meets on the Northwestern University campus in Evanston August 15-31 this year. The purpose of this series at the Methodist Church of Antioch is to provide the congregation an opportunity to reflect upon various aspects of this theme.

Part of Dr. Thompson's address will deal with the following two questions: "What is the relevance of the Christian faith and hope for the economic and social problems of our time?" "What is the meaning of this hope for the desperate need of large parts of society today?" These meetings are open to all people in the community, who are concerned with finding answers to these problems.

A potluck supper will be served at 6:30 p. m.

Pechulis, Floyd Win Lions Club Awards At H. S. Athletic Banquet

All Three Basketball Teams Receive Trophies for Championships

More than 220 persons attending the annual athletic banquet and program at the Antioch Township High School Monday evening saw the football award go to Joe Pechulis, a senior, and a basketball award go to Ben Floyd, a junior.

Their names as outstanding athletes will be placed on the trophy given last year by the Lions club, sponsors of the event.

Coach Richard Scott presented the trophy to the varsity basketball team for its achievement in becoming co-champion in the Northwest Conference, and Coach Warren Polley presented the trophy to the sophomores for the same achievement.

Coach Paul Kessenich completed acknowledgment of the school's triple triumph by presenting a trophy to the freshmen for winning the conference championship in their class.

Elmer Angman, Notre Dame, 1954, a member of the Cardinal Professional Football team, told the boys of the school that it is a good thing to make a success in sports, but warned them that at the same time they must gain a professional, trade, business or program for life that will bring them an income after their brief years of athletics are over.

Mayor James W. McMillen, Illinois, 1924, advised the students to enter sports wholeheartedly and not anything less. "Put everything you have into it," he told them.

Ted Larson, president of the Lions club presented the awards to Pechulis and Floyd in behalf of his organization. He likewise gave the welcome address which was answered by Pechulis who heads the "A" club. E. C. Jacobs served as toastmaster.

The banquet prepared by the school cooks, was served by students of the home economics department in the school cafeteria. The crowd then went to the auditorium for the program.

Principal Albert Dittman introduced the coaches who in turn introduced the players and cheerleaders and handed out the trophies.

The committee on arrangements comprised Irving Carey and Anton Stanich, the committee on food headed by Mrs. Eva Gaylord; on dining room, Mrs. Marian Brown; and on decorations, the G. A. A.

Loot of Thefts from Grass Lake Region is Found at Bluff Lake

A pile of loot found under some empty beer cans beside an abandoned barn at Bluff Lake by Deputy Sheriff Norris Froelich Friday may be the answer to a series of burglaries in the Grass Lake region.

Four juveniles, one of whom has been arrested before for theft, admitted hiding the loot under the eaves of the barn.

Froelich said there have been several break-ins in the Grass Lake area, but no clue was obtained until Tuesday of last week when V. A. Banasack, caretaker at the David Hall estate caught a small boy running from the estate and took his name.

Included in the loot was a large quantity of fishing gear and archery equipment, a large box of shotgun shells, a half gunny sack of shotgun shells, an imported German dagger, a fancy sling shot and a stuffed duck. The shotgun shells alone are worth from \$150 to \$200.

The youngsters remain in the custody of their parents pending a decision of the state's attorney's office.

Ten players of the Antioch basketball squad attended the Friday session of the Illinois State Basketball tournament at the University of Illinois campus. The boys who made the trip to Champaign were Warren Brownlee, David Cain, Fred Clarke, Charles Davis, Ben Floyd, Mike Haviland, Larry Lass, Tom McGreal, Jack Palmer, and Charles Sullivan. They were accompanied by coaches Richard Scott and Warren Polley.

Waukesha, Wis., Mar. 24, 1954—David Petty, 1038 Spafford st., is one of six men at Carroll College to be named by Coach Francis (Mickey) McCormick to receive varsity wrestling letters. A freshman at Carroll, Petty wrestled in the 165-lb. class.

Praise for Country Press

Lavish praise for the country press recently came from a top governmental official, Secretary of Commerce Weeks. He said: "When the history of this age . . . is fully described, great credit for maintaining our freedom will go to the American press, and particularly the country and suburban newspaper."

"The weekly press is the community's loyal, trustworthy, warmhearted friend. It knows everybody. It goes into every home as a welcome guest. It keeps neighbors acquainted with each other. Its advice is wise and its sympathetic interest is genuine. It fosters civic pride and an enterprising community spirit. It is the stout champion of the moral principles that make America great. And it tells the truth."

Coffee and Butter

"Let us make it clear immediately and without qualification that the rising price of coffee irks us as much as it does the next man," says the Wall Street Journal. "Nevertheless the furor over coffee does highlight some curious circumstances."

"The prices of other agricultural products are high. We cite the case of butter."

"In part at least the price of coffee goes up because the supply is short in relation to demand. But there is no such excuse for the price of butter. Instead production is ample and it continues to rise."

"It has been charged that the short crop is not the only reason for the ascent of coffee prices: There has been muttering about cartel arrangements and manipulation. Well, in relation to butter no one has to be in the dark about those features. The United States Government is running a gigantic butter cartel which openly manipulates to keep the price far above what is would be in a free market."

"Suppose that coffee were a domestic crop instead of an imported crop. Would the senators from the coffee states then be exercised about the present price? Or would they be insisting that the price was just and that any attempt to bring it down would be ruinous to coffee raisers?"

Economic Highlights

The March 1st issue of Newsweek featured an exceptionally clear and compelling article on the United States shipbuilding industry and merchant marine. It dealt in considerable detail with the grave problems that have arisen, their cause, the cure, and with what this all means to the nation at large.

Newsweek began: "U. S. shipbuilders appear to be running spank into a violent business storm." A few facts bear that out. During the past 15 months, not one new order for an oceangoing merchant vessel has been received by an American yard. A year from now all but one of the ships now building will be completed. Even that doesn't tell the whole story. For, Newsweek said, "Even if drastic remedies were adopted today, the benefits would not follow immediately. There is usually a lag of about a year between the decision to build a vessel and the keel-laying. Meanwhile, shipyards are faced with losing their

valuable technical and design staff."

There are various reasons for this situation. Number 1 is that of money. A ship can be built in a foreign yard for about 40 per cent less than in this country, due to our higher wage and other costs. Since 1948, foreign yards have received \$878,000,000 worth of business from American concerns. Also, American shipping lines have been losing business to foreign competitors. According to Newsweek, American flag vessels carried 56 per cent of our import and export business in 1947—now they carry 28 per cent. According to Newsweek almost 80 per cent of the 1,246 ships in our private oceangoing fleet were war-built and will become obsolete between 1962 and 1967.

What is the public interest in this? Newsweek gave the answer: "The plight of the shipbuilders isn't just the story of an industry in trouble. The national security is directly involved." Later on the same point was stressed: "It is true that the U. S. Merchant marine is at a historic crossroads. And the stake is far greater than the investments of any individual companies. The national security is inextricably involved."

What is the solution? Authorities on merchant marine affairs say that, primarily, it lies in clearing up the muddled matter of subsidy. Subsidies have long been provided to American lines because there is no other practical way to equalize the great difference in building and operating costs they must meet as compared with their foreign competitors. But subsidy payments have been held back because, in Newsweek's words, ". . . through some inconceivable blunder, the statute covering the matter failed to authorize the General Accounting Office to ante up the agreed-upon subsidies in many situations." So long as that is the case, no line can afford to contract for new vessels. All believe that once this foul-up was eliminated, which can only be done by Congress, there would be a flood of new orders for both passenger and cargo ships.

Finally, Newsweek evaluated the prospects in these words: "The immediate outlook is an undeniably grim one. But, assuming new understanding and reasonably prompt action in Washington, there is reason to hope for something better in the future. The end of the line for the merchant marine is not, after all, just around the corner."

Grass Roots Opinion

BEDFORD, Ind., Daily Times-Mail: "Newspapers (in 1953) reached new heights in circulation and advertising, giving them the largest volume in their history in both of these categories. This means that in spite of competition from television, radio and magazines for both the readers' time and the advertisers' dollars, newspapers have been given a tremendous vote of confidence."

OLYMPIA, WASH., OLYMPIAN: "It was Thomas Jefferson, himself a farmer, who once said, in effect, that if we allow government to tell us when, where, and what to plant, and when to harvest, we'll jolly well starve to death."

WACO, TEXAS, MESSENGER: "While most Americans laud the democratic type of government many of them have taken it too lightly. They seem to be cognizant of its many benefits but at the same time seem unmindful of its responsibilities. Everyone wants to be called a member of the team, but against the total population only a few are willing to share team responsibilities."

PHOENIX, ARIZONA, SUNNYSLOPE JOURNAL: "Let's get back to American principles. Instead of calling names, let our politicians come up with something to keep the wheels of business and industry rolling."

Mr. and Mrs. Oliver Walker entertained a number of relatives at their home on Friday evening and on Sunday afternoon in celebration of their daughter's second birthday.

We say this to America...

It took Studebaker, the great independent, to build the **FIRST** really modern car!

IT HAD to be done—and Studebaker did it! Studebaker—the great independent of the automobile world—once again has set the pattern for car design for years ahead!

Today's new Studebaker—styled by Raymond Loewy—is Studebaker's answer to America's growing demand for lower cost motoring.

The speedlined new Studebaker silhouette is designed to save gasoline sensationally because it's free from power-wasting excess bulk. Studebaker has no "fam-

ily" of cars to consider when it introduces a new model. Pace-setting Studebaker builds no other cars. Studebaker is completely independent.

That independence is the reason the far-advanced new 1954 Studebaker has swung on the scene so fast.

Drive the car! Get the proof! Get ahead of the parade—and get a '54 Studebaker. Don't settle for an old-fashioned "new" car this year.

Get the out-ahead styling—the stand-out operating economy—of a Studebaker.

Public Service Company Credits Jan. Increase To February Statement

Commonwealth Edison Company and its Public Service Company division announced today that they would credit their electric and gas customers with an amount equal to the recent rate increase for the month of January.

Beginning with meter readings on and after February 1, the company has been applying the new rates to service from January 1 in accordance with the Illinois Commerce Commission's order of January 16,

1954. Under a new agreement, electric customers of Edison and Public Service and gas customers of Northern Illinois Gas Company, a new Edison subsidiary, who have paid the higher charges for January will receive credit on a subsequent bill.

The amount of credit each customer will receive will depend on when his meter was read after Feb. 1. Officials said that delay in application of the new rates from Jan. 1 to Feb. 1 would cost the companies an estimated \$1,500,000 in revenues.

The Edison Company serves 1,505,000 electric customers in Chicago and, through its Public Service division, 700,000 electric customers in over 500 northern Illinois communities. Northern Illinois Gas

Company serves 451,000 gas customers in 232 northern Illinois communities outside Chicago.

BUICK

the beautiful buy

NEVER before its introduction by Buick did you see a windshield like this on a standard-production automobile.

It comes from the experimental "dream cars" you may have seen pictured from time to time—but it's on every 1954 Buick today.

As you can see, this broadly arching sweep of glass adds new beauty and a definite look of tomorrow to the glamorous new Buick.

Even more, this stunning new windshield treatment gives you 19% more visibility—

because it pulls back the corners, lets you see as a pilot sees.

But there's a lot more than "dream car" windshields to the new-day 1954 Buicks.

For these are really new cars—with new bodies, new interiors, new ride features, new handling ease—and, above all, new record-high V8 horsepowers.

Come in and look them over—sit in, sample and price one of these breath-taking new glamor Buicks. It's the only way to know what beautiful buys they are in every way.

YESTERDAYS

Taken from the Antioch News
March 28, 1908
46 YEARS AGO

The motto "In God We Trust" is again to be placed on our gold and silver coins. The bill was passed by the House of Representatives Monday, by a vote of 225 to 5.

A cafeteria supper will be served at the next meeting of the Ladies Aid Society to be held in the church basement Wednesday afternoon. The menu will be waffles, maple syrup, biscuits and honey, pancakes and maple syrup, eggs, sandwiches, pickles, salad, pie and cheese, doughnuts, tea and coffee.

On Saturday a crowd of young people gathered at the home of Miss Katie Leonard of Lake Villa and gave her a nice surprise.

Leon Strang, Geo. White, Robert Bonner, Ralph Miller, Helen Safford, Mabel Bonner and Pearly and Ruby Cleveland are home for their spring vacation, at Millburn.

36 YEARS AGO
The town primary, on Saturday last, was made up of as much vim and hustle as could possibly be crowded into the three hours that the polls were open. Right on the stroke of one the votes began pouring in and for the first two hours they registered at two hundred per hour. During the last hour before closing the rush let up a little, but even then over a hundred votes were cast within the last sixty minutes.

Laurel Powles is visiting his parents here this week, he is now a federal officer in the Immigrant Building in Chicago.

F. R. King, Antioch's popular druggist has purchased the confectionery and ice cream business of J. N. Pacini. King will operate both places and will manufacture the icecream for use in his drug store which he will conduct the same in the future as in the past.

Casserole Idea

Noodles go into a casserole with beef or pork cubes and condensed tomato soup diluted with water. Onions, celery and green pepper, chopped are good additions for flavor.

GEMS OF THOUGHT

Kindness

Kindness is the golden chain by which society is bound together.

—Goethe.

The charities that soothe, and heal, and bless, lie scattered at the feet of men like flowers.

—Wordsworth.

The Golden Rule works like gravitation.

—C. F. Dole.

It is one of the beautiful compensations of life that no man can sincerely try to help another, without helping himself.

—Charles Kingsley.

To cultivate kindness is a valuable part of the business of life.

—Samuel Johnson.

Wise sayings and garrulous talk may fall to the ground, rather than on the ear or heart of the hearer; but a tender sentiment felt, or a kind word spoken, at the right moment, is never wasted.

A NEW, IMPROVED TELEPHONE SERVICE PLAN proposed for ANTIOCH

Larger local calling area to include calls to Fox Lake and Lake Villa telephones—without toll charges and with no limit on talking time!

Basic monthly service rates will be higher, but customers will save toll charges to the above communities.

Since 1940, there has been a big change in people's telephone calling habits. For example, more people now live in surrounding towns or in neighboring territory. So your telephone calling has "spread out" to include a bigger area.

We've been studying these changes to find out how we can make our service fit the needs of our customers better. We've studied their calling habits to find out where they call the most on social and business matters.

As a result, we recently proposed a new, improved "spread out" service "tailor-made" to meet the needs of most of our customers. This proposal was made to the Illinois Commerce Commission. If approved after hearings before the Commission, it will replace the present service plan.

Under this proposal you would have these advantages!

1. A larger local calling area, including the exchanges listed above.
2. You can call these points as often as you want with no toll charge and you can talk to them as long as you please without additional charges.

In other words, with the new rates, many toll charges and overtime charges will be eliminated entirely.

Complete information on the new, improved Service Plan is contained in this folder which is being mailed to you. Don't fail to read it!

This folder explains the new rates and includes a map which shows you the new enlarged toll-free calling area. Please read this folder carefully. Then if you have any questions, or if you do not receive the folder soon, call your Service Representative at our Business Office. She will be glad to help you.

Why Higher Rates?

Your monthly charge will be higher. But the value of your service also will be greater.

Increases are necessary because inflation continues to increase our costs. Biggest cost item, wage rates, has gone up 132% since 1940. An installer's truck which cost us \$901 now costs \$2,224! Copper has gone from \$10.69 to \$29.88 per hundred lbs. A telephone pole that cost \$15 now costs more than \$40. And so it goes. Most of the things we use to provide your telephone service have just about doubled in price!

Yet, we must continue to meet the needs of our customers. We must continue to provide the kind of service you need today, keeping it good where it is good, making it better where it should be better. Even with the rate adjustments we are asking, telephone service will still be one of the biggest bargains in your family budget. Few things give you so much for so little as your telephone.

We will gladly answer your questions—call us, **ILLINOIS BELL TELEPHONE COMPANY**
